## Grace Period

Cardholders who pay in full on or before the payment due date will enjoy an interest-free period of 20 days for all outstanding balances (except Balance Transfer and Cash Advance Balances).

## Minimum Monthly Payment

The minimum monthly payment is 5% of the outstanding balance or RM50, whichever is higher. Effective 2 Oct 2019, minimum monthly payment will be revised to 5% of current balance + 100% monthly instalment of Credit Card Instalment Plan (if any) + any unpaid minimum payment specified in the preceding month's card statement. OR RM50, whichever is higher. The table below shows how long it would take to pay off an outstanding balance. The assumptions are based on: (1) interest rate of 18% p.a. for the entire repayment period; (2) there are no new retail transactions after the 1st month; (3) 30 days per month; and (4) payments are received on or before due date.

Outstanding balance (RM)	RM3,000		RM 5,000		RM 10,000	
Repayment	Pay only minimum amount (RM150 in 1st month)	Pay (RM250 every month)	Pay only minimum amount (RM250 in 1st month)	PaY (RM350 every month)	Pay only minimum amount (RM500 in 1st month)	Pay (RM600 every month)
Repayment period	4 years and 7 months	1 year and 2 months	5 years and 9 months	1 year and 5 months	7 years and 4 months	1 year and 8 months
Total interest incurred (RM)	RM1,055	RM333	RM1,912	RM670	RM4,055	RM1,594
Total amount to be settled (RM)	RM4,055	RM3,333	RM6,912	RM5,670	RM14,055	RM11,594

## Finance Charges

The finance charge is charged at the applicable tiered rate (as in (a) of the table below) for all retail transactions from the posting date of the said retail transactions. For Cardholders who make minimum or partial payment in the prior month, finance charge will be imposed on the unpaid balances (except for late fee and applicable lax) and for all new retail transactions, from the date of posting.

Finance charge is calculated on a daily basis and also imposed on cash advance and balance transfer amounts commencing from the day they are posted to the card account.

After determining the balances and the respective periods on which the finance charges may be imposed, the following formula for the computation of finance charges is applicable:

$$f = (B) \times (P/D) \times (R)$$

$$F = \text{Sum}(f)$$

Where F is the total finance charges imposed for the month and Sum(f) is the sum with finance charge over the applicable periods during the month.

f is the finance charge for a particular balance "B" computed over the period of "P" days.

B is the balance that is imposed with finance charge.

P is respective period in days on which the balance "B" is imposed with finance charge.

D is 365 base days (366 for a leap year).

R is the nominal finance charge annual rate stated.
